

Railway Design

Railway Design

Vermont Passenger Station

\$24.95

Taken from a prototype station in New Haven Junction, Vermont, this red brick station with its charming details and brick chimneys is typical of Railway Design Structures, which maintain a unique character in easy-to assemble injection molded plastic kits. Comes with roof, walls, braces, base and detail parts. Footprint approx. 5 1/2" long X 5" wide over platform base. Model and pic by Roy Leon Durham of Florida.
